Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	4 Marks

Empathy Map Canvas:

Says

Thinks

- I want to grow the right crop for my land."
- "Weather changes are affecting my farming."
- "I need reliable farming advice."
- "I want to increase my crop yield."
- "I don't want to waste money on the wrong crop."

- Which crop will give me the highest profit?
- Is my soil suitable for this crop?
- Will rainfall be sufficient this season?
- How can I reduce farming risks?
- Can technology help me make better decisions?

Farmer

Does

Feels

- Tests soil before cultivation (if facilities are available).
- Consults local farmers and experts.
- Monitors weather forecasts.
- Chooses crops based on past experience.
- Uses fertilizers and irrigation for better yield.

- Worried about crop failure.
- Confused by changing weather patterns.
- Hopeful that technology can improve farming.
- Motivated to increase productivity.
- Concerned about financial losses.
